BEAUTIFUL NATIVE PLANTS

FROM THE
HIGH PLAINS, BADLANDS
AND BLACK HILLS

In keeping with the war effort to conserve paper we are having our 1943 hardy plant catalog serve also for 1944, with only this supplement listing some additional worthy items.

A new copy of the 1943-44 catalog will be mailed on request.

Additions for 1944

Achillaea lanulosa A pleasant little non-ramping Yarrow with heads of unusual whiteness. Suggesting *A. millefolia*, it flowers at but 6 to 9" and travels only an inch or two a year. 35c each.

Astragalus (Geoprumnon) crassicaarpus Buffalo Pea, Ground Plum. Procumbent stems, deep green pinnate leaves, May-time bloom of purple, pink and buff blended. From June on are displayed spread-out clusters of red cheeked fruits like small plums. 40c; 3, \$1.10.

Oxytropis sericea May Loco. Earlier than *O. lamberti*, wider silvery leaflets, larger florets. 10". Selected tones, pastel pink and rose. 50c.

Solidago glaberrima Dwarf selection, Smooth Goldenrod, 10 to 12" high, with very handsome broad, nodding tipped panicles. August. Moderately encroaching. 35c; 3, 60c.

Solidago wardi Ward Goldenrod. Upright rods of golden beauty, to 30", lovely with September Asters. Strictly non-spreading. 35c; 3, 60c.

Viola pedatifida Showy blossoms of sky blue carried above much divided leaves. Stemless. Any soil, shade or sun. 35c; 3, 80c.

Yucca glauca Most northerly ranging Yucca, with white edged, bayonet-like, evergreen leaves, to 20 or 24", flowering spike or panicle 36 to 40". Pendant creamy bells, June. 40c; 3, \$1.00.
